HOW TO USE THIS BOOK

Three small steps for every letter

1

Look and say

Look at the dark letter in the yellow box. Say its name aloud.

2

Trace

Trace the grey letters slowly. Arabic is written from right to left, so start on the right.

3

Write

Write the letter by yourself in the empty boxes.

Tips for parents and teachers

One page a day is enough. Ask the child to say the name of the letter every time they write it. Praise neat, slow work more than fast work.
